RESEARCH INTERESTS

I am interested in **Human-AI Interaction** and **Human-centered AI**. My research aims to support **dynamic alignment** between humans and AI agents, grounded in mutual understanding and structuring. In the age of AI agents, humans delegate more tasks, while AI systems can access and process ever more information. This shift introduces new challenges in how humans and AI understand each other and take appropriate follow-up actions. I approach this from two complementary directions: (1) *from the human's perspective*, by building interactive interfaces that help people understand, evaluate, and structure actionable feedback on AI behavior, and (2) *from the agent's perspective*, by improving its ability to understand user intent and context and to structure what actions to take.

EDUCATION

Korea Advanced Institute of Science & Technology (KAIST), Daejeon, South Korea Feb 2025 — Present
Master's Student in School of Computing
Co-advised by Joseph Seering and Juho Kim

Korea Advanced Institute of Science & Technology (KAIST), Daejeon, South Korea Feb 2018 — Feb 2025
B.S. in School of Computing
Minor in Civil & Environmental Engineering

Nanyang Technological University, Singapore, Singapore Jan 2024 — May 2024
Exchange Student (Coursework & Undergraduate Research Track) [W1]
Advised by Chei Sian Lee

WORK EXPERIENCE

KAIST Interaction Lab (KIXLAB) Daejeon, South Korea
Undergraduate Research Intern (Mentors: Tae Soo Kim, Yoonjoo Lee) Jun 2024 — Feb 2025
• Worked on Evaligner project [W2]

Selectstar Inc. Seoul, South Korea
Frontend Developer Dec 2020 — Dec 2023
• Three years of full-time experience in frontend engineering. Participated in the iOS, Web project 'Cashmission', 'Cashmission: Spike', and 'Momojam'

PUBLICATIONS

Under Review (Working Title)

[U1] **An Interface Integrating Multi-Agent Discussions into User's Evolving Documents**
Heechan Lee, et al.
Under Review

Conference Paper

[C2] **TIDES: A Longitudinal Bilingual Dataset for Modeling Multi-Party Social Dynamics**
Heechan Lee, Jeonggyu Kang*, Junho Myung, Jaywoong Jeong, Juho Kim, Joseph Seering. (* equal contribution)*
COLM 2026

[C1] **Evalet: Evaluating Large Language Models through Functional Fragmentation**
Tae Soo Kim, Heechan Lee*, Yoonjoo Lee, Joseph Seering, and Juho Kim. (* equal contribution)*
CHI 2026 (**Honorable Mention Award**)

Short, Workshop Paper

[W3] **Accuracy, Diversity, and Reflection: Purpose-driven Evaluation for Social Simulation**
Heechan Lee and Joseph Seering

CHI 2026 Workshop on LLM Agent Simulation for Policy (PoliSim@CHI)

[W2] **Evaligner: Automatic Prompt and Criteria Refinement from User Feedback**

Heechan Lee, Tae Soo Kim and Juho Kim

CHI 2025 Workshop on Human-centered Evaluation and Auditing of Language Models (HEAL@CHI)

[W1] **Digital Nudge Alerts: Fact-checking Generative AI Responses for Fact Checking**

Chei Sian Lee, Kok Khian Lim, **Heechan Lee** and Dion Hoe-Lian Goh

ICADL 2024: The 26th International Conference on Asia-Pacific Digital Libraries, Short paper

AWARDS & GRANTS

Best Paper Honorable Mention Award

2026

CHI 2026

[C1]

National Academic Scholarship (Science & Technology), Korea Student Aid Foundation

2018 — 2023

TEACHING

KAIST CS374 <Introduction to HCI>

2025 Spring

Teaching Assistant (Instructor: Joseph Seering)

ACADEMIC SERVICE

Reviewer: UIST 2026 / CHI 2026 Poster

SKILLS

Frontend React.js, Next.js, SwiftUI, D3.js

Languages JavaScript, TypeScript, Python, Swift

Others Slack, Figma, Notion

LANGUAGES

Korean *Native*

English *Full Professional Proficiency (TOEFL IBT 5.0 (R5.0/L5.0/W4.0/S5.0, CEFR C1) - June 2026)*

Japanese *Basic (JLPT N3)*
